## The Transformative Power of Our Choices

As we journey through Lent, we are invited to reflect on the transformative power of our choices in light of the following themes. Development and Peace encourages us to Turn Debt into Hope, reminding us that our efforts can uplift communities in need. The Jubilee 2025 initiative calls us to embrace our role as 'Pilgrims of Hope', walking together on the Pilgrim's Way towards justice and renewal. Let us engage in feasting and fasting, not only as personal disciplines but as communal acts of solidarity, fostering a spirit of compassion and generosity during this sacred season. Together, may we create pathways of hope that lead to a more just and equitable world.

*Bishop Wayne Kirkpatrick*
